2010 Market Basket Registration Form

The Market Basket is based on a traditional CSA (Community Supported Agriculture) model, which connects one supporter to one farm. The Market Basket connects you to several farms, bringing together produce from vendors at each neighborhood farmers market.

If you love fresh, locally grown foods but don't have the time to pick each item out (and are excited about trying a few new ingredients), this program is for you!

Each week we'll send out a short email introducing you to the farmers who grow your food, giving recipes, and offering storage and preservation tips.

If you know you'll be out of town just ask a friend to pick up your share for you.

Shares that are not picked up by the end of market will be donated.
